

FUNKTION-ONE

F101

The F101 loudspeaker enclosure, comprising 1 x 10" bass/mid driver and 1" high frequency device, is a larger version of the successful F81. It offers exceptional clarity and imaging with a sensitivity of 101dB for 1 watt at 1 metre which is unprecedented for this class of loudspeaker. The F101 neatly fills a niche between the F81 and the Resolution 1 being ideal for anything from a studio reference monitor to AV presentations and theatre.

Features:

- Expansive sound from compact and light weight enclosure
- Exceptional clarity, vocal projection and imaging
- Wide dispersion
- Unprecedented sensitivity for this class of loudspeaker
- 10" and 1" drivers optimised to Funktion One specification
- High passive crossover point to HF driver (4.5kHz)
- Brilliantly tuned plywood enclosure
- Choice of Speakon or single handed installation connectors
- Threaded mounting and attachment points
- Integral 'top-hat' for stand mounting
- Curved powder-coated mild steel grill

Driver Complement	Sensitivity (1W at 1m)	Power (rms)	Nominal Impedance
10" Loudspeaker 1" Compression Driver	101 dB	150W	8Ω

Frequency Response: 85Hz - 19kHz
 Weight: 10.1 kg (22.2 lbs)
 Nominal Dispersion: 90° x 70°
 Connectors: 2 x NL4 Speakon or Phoenix Installation Connector
