

FUNKTION-ONE

F218 MK2

This is Funktion One's renowned bass design, which is the result of a holistic approach, over many years of research and development, into bass loading techniques. The evolved product is highly regarded in professional audio circles for its extreme robustness and delivery of large quantities of tight, punchy, well-defined clean bass from a relatively small and very manageable package. It has often been emulated but never equalled. The recently introduced F218 Mark 2 brings refined loading, improved heat dissipation and an updated driver spec. In larger systems, F218s are best deployed stacked above each other on their sides. When used in multiples in this way the horn mouth is effectively enlarged resulting in improved deep bass delivery.

Features:

- Sophisticated loading design with new Andrews' tuning
- Funktion One designed drivers
- Integral handles
- Optional throat grills
- Optional wheels nest inside flare of adjacent enclosure for optimised truck packs
- Optional lightweight Neodymium magnets

Driver	Usual Operating Band	Sensitivity [1W at 1m]	Power [rms]	Nominal Impedance
2x18"	25 - 125Hz	105dB	900W	2 x 8Ω 4Ω Total

Please check website for latest system crossover settings

Frequency Response \pm 3dB:	45Hz - 280Hz
Weight [ceramic magnets]:	93 kg [204 lbs]
[neodymium magnet]:	81.5 kg [179 lbs]
Construction:	18mm Birch ply
Connectors:	2 x Speakon 4 Pole [NL4]
	(One driver wired pins 1+/- and one on 2+/-)
